# Renée Creppy

rcreppy@stanford.edu

## EDUCATION

---

**Stanford University** **Present**
*Social Psychology Ph.D. Student*

**Xavier University of Louisiana** **2024**
*Bachelors of Science in Neuroscience*
*Bachelor of Arts in French*
*Cumulative GPA: 3.9/4.0*

## WORK EXPERIENCE

---

**Lab Manager** **Princeton, NJ**
*Princeton University CoLab* June 2024 - July 2026

- Developed infrastructure to run online developmental studies using Children Helping Science; authored lab manual documentation and trained graduated students in implementation
- Designed, launched, and analyzed resource allocation study on children's expectations of leaders; communicated with participants and families, wrote debriefs, and pre-registered experiments
- Designed additional projects on children's understanding of labor and risk, currently in development
- Conducted literature reviews and wrote IRB amendments, managed lab submissions and protocols
- Mentored and supervised undergraduate research assistants; advised one student on their Junior Paper and senior thesis
- Managed lab budget and participant compensation
- Organized lab meetings, in-person data collection opportunities, and lab visits
- Planned and executed lab events, including "Game Jam" hackathon for the lab
- Coordinated onboarding of graduate students to facilitate participant recruitment at the University NOW Day Nursery
- Presented research ideas at lab meetings and in the Department of Psychology Developmental Seminar

# RESEARCH EXPERIENCE

---

**MIT Summer Research Program in Biology** **Cambridge, MA**

*Research Assistant, Early Childhood Cognition Lab* June 2023 - August 2023

- Participated in weekly seminars with biologists and neuroscientists
- Developed an online developmental experiment using jsPsych and the Children Helping Science platform to investigate children's sensitivity to high-order abstract relationships
- Designed experimental stimuli
- Conducted literature reviews to connect the project with broader theoretical frameworks
- Authored a detailed debrief document outlining the study's purpose and procedure
- Demonstrated a commitment to open science practices by preregistering the study on Open Science Framework (OSF)
- Presented research through multiple formats: written abstract, oral talk ("Abstract Relations in Early Childhood"), and presentation to MIT faculty and peers

**mindCORE Summer Fellowship** **Philadelphia, PA**

*Applied Neuroscience & Business Analytics Fellow, Platt Labs* June 2022 – August 2022

- Selected as a Wharton Applied Neuroscience & Business Fellow (one of four students chosen)
- Developed a novel scale using Qualtrics to measure action anticipation
- Synthesized an extensive body literature review to establish the study's theoretical foundation
- Designed and implemented an experiment with human participants, including recruitment and data collection
- Analyzed behavioral data in R
- Delivered a research talk titled, "The Dissociable Roles of Predicting, Planning, and Reacting in Action Anticipation"
- Presented findings to a scientific audience, including faculty at the University of Pennsylvania, during a poster presentation

**Summer Undergraduate Research Experience** **Claremont, CA**
*Drug Discovery Intern, Keck Graduate Institute* June 2021 – August 2021

- Engaged in a series of seminars and workshops to gain insights into the pharmaceutical industry
- Collaborated with a team to complete a bio-entrepreneurship project (repurposing of a drug for a novel indication)
- Researched and analyzed target populations and competitive landscapes for the repurposed drug
- Created a business plan, including financial projections, risk assessments, and marketing strategies
- Evaluated feasibility and potential impact of repurposing strategy using data analysis
- Presented findings and recommendations to faculty advisors and industry experts

# CONFERENCE POSTERS

---

**Creppy, R.** and Vélez, N. (2026 July). C*hildren's Expectations of Dominant & Prestigious Leaders*. Poster presented at CogSci, Rio de Janeiro, Brazil.

**Creppy, R.** and Vélez, N. (2026 April). *Children's Expectations of Dominant & Prestigious Leaders*. Poster presented at the Cognitive Development Society Biennial Meeting, Montreal,Canada.

**Creppy, R.** and Vélez, N. (2025 August). *Children's Expectations of Dominant & Prestigious Leaders*. Poster presented at CogSci, San Francisco, CA.

Coates, N., **Creppy, R.,** Siegel, M., Pelz, M., Tenenbaum, J., Schulz, L. (2024 March). *Preschoolers Represent Abstract Relational Properties of Sets and Functions*. Symposium at the Cognitive Development Society Biennial Meeting, Pasadena, CA.

**Creppy, R.**, Coates, N., Schulz, L. (2023 November). *Abstract Representation in Early Childhood. Poster*. Presented at the Annual Biomedical Research Conference for Minoritized Scientists, Phoenix, AZ.

**Creppy, R.** Angelides, N.H., Platt, M.L. (2023 April). *The Dissociable Roles of Predicting,Planning, & Reacting in Action Anticipation*. Poster presented at the Festival of Scholars at Xavier University of Louisiana, New Orleans, LA.

## EXTERNAL & INVITED PRESENTATIONS

**Johns Hopkins University,** LIU Lab (PI: Shari Liu, Ph.D.) 2026
*Who takes and who gives? Children's Expectations of leaders in dominant and prestigious relationships*

**Xavier University of Louisiana,** McNair Scholars Program 2025
*Growing Up In Science*

**Xavier University of Louisiana,** McNair Scholars Closing Ceremony 2023
*My Story So Far: My Undergraduate Research Journey & How to Find Research Opportunities*

# HONORS & AWARDS

UNCF Building Better Futures Grant Winner, 2024
Honors in French, English, and Theology, 2024
summa cum laude, 2024
Student Spotlight, Analytics at Wharton, 2022
McNair Scholar, 2022- Present
English Speaking Union Luard Morse Scholarship Finalist, 2021
Outstanding French Student, 2021
Dean's List, 2020-2024

## SERVICE

**BLANC Lab, Princeton University**
*Summer 2025*

- Launched and co-founded a department-wide initiative to foster community among summer research assistants
- Collaborated with four other lab managers to design programming and coordinate schedules for research assistants across labs
- Led a workshop on science communication to help trainees build presentation skills

**Co-Chair, Person of Color Affinity Group**
*July 2024 - August 2025*

- Co-led a departmental affinity group for underrepresented students, fostering community and creating an inclusive space
- Managed the budget, gathered participant feedback, and used responses to shape programming
- Organized events including social gatherings and invited talks, including hosting Dr. Angeline Dukes (Founder, Black in Neuro)

# ADVISING

---

**Megan Wheeler**, Thesis Student, Princeton University 2024-2026
